Juno Lighting

DESCRIPTION

The Outdoor LED Wet Location Mini Downlight Housing and Trim with 35 Degree Flood is for use in wet locations and is IC rated for insulated or non-insulated applications. Ideal for wet location applications including bathrooms and eave lighting. Available in Satin Nickel finish in 2700K color temperature, and White finish in 3500K color temperature. Lumileds LUXEON Rebel LEDs provide comparable light output to a 20 watt MR11 halogen lamp while consuming 5 watts. LED source concealed with lensed optic is deeply regressed into an internal reflector to produce a low glare system. Life rated for 50,000 hours at 70 percent lumen maintenance. Remote mount Class 2 12 volt AC electronic or magnetic transformer is required, but sold separately. Dimmable per transformer specification. UL listed for wet locations.
