DESCRIPTION

Lane wall sconce features a white, aluminum or polished finish. Lane fixture is a strip made of aluminum which incorporates and at the same time releases a pleasant indirect light, upward and downward on the wall. Extremely neat and essential in its shape, Lane is designed with different lengths according to the light source. Available in an 8 inch halogen option as well as a small, medium and large size option. Also available in a wall version with integrated acoustic diffusion system or with two LED spots for direct light for reading. 39, 54 or 80 watt 120 volt T5 Minibipin fluorescent lamp not included. Indirect upward/downward light distribution. c/UL listed. Small: 37W x 3.14H x 3.54 inch depth. Medium: 49W x 3.14H x 3.54 inch depth. Large: 61W x 3.14H x 3.54 inch depth.
