

BRAND Lutron

DESCRIPTION

PP-20 Dimmer Power Pack is for use with Lutron NTSTV (over 8 amps) and DVTV dimmers, microOS ceiling mount occupancy sensors and 0-10V dimming ballasts. Features include teflon insulated pigtails and ABS housing fire-rated for mounting in ceiling plenums. Simple junction box mounting in a standard knockout with all needed hardware included. Dual voltage 120/277V compatibility. Max load 20 amps (16 continuous). Operates up to five Lutron microOS ceiling mounted occupancy sensors. Up to 10 power packs can be connected to one Lutron 0-10VDC ballast control for switching of multiple circuits. For use in single pole applications only-not compatible with 3-way switches. Total length of low voltage wiring between the power pack and ceiling mounted occupancy sensor or 0-10VDC ballast control should be less than 500 feet. UL listed. 3 inch width x 2.5 inch height x 1.75 inch depth.
