DESCRIPTION

This remote magnetic transformer converts standard 120 Volt line voltage to 12 volts, providing the necessary voltage for powering a monorail, kablelite, radius wire, twin rail, wall monorail or freejack low voltage lighting system. The remote AT600T magnetic transformer can be used to power lamps totaling up to 600 watts. This transformer is equipped with fast-acting secondary circuit breaker that will safely turn off the system should a short occur. Once the short has been removed the breaker can be reset.
